AMENDED IN SENATE MARCH 8, 2005

SENATE BILL

No. 143

Introduced by Senator Runner
(Coauthor: Senator Ashburn)

(Coauthors: Assembly Members Maze, McCarthy, and Sharon Runner)

February 3, 2005

An act to add Section 11093.5 to the Government Code, relating to statistical districts.

LEGISLATIVE COUNSEL'S DIGEST

SB 143, as amended, Runner. Statistical districts: Antelope Valley.

Existing law requires any state agency or department that develops and maintains data and statistics on the municipal level to make a separate breakdown of the San Fernando Valley, as described, in the preparation and maintenance of any statistical analyses by city, and authorizes state agencies to require the City of Los Angeles to provide all necessary data.

This bill would similarly require designated state agencies to make a separate breakdown on the Antelope Valley, as described, in the preparation and maintenance of any statistical analyses and data by county and would require the Counties of Kern and Los Angeles to provide all necessary data upon the request of those state agencies.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

SECTION 1. Section 11093.5 is added to the Government Code, to read:

11093.5. (a) (1) The *Business, Transportation and Housing Agency*, State Board of Equalization, Franchise Tax Board, Employment Development Department, Department of Industrial Relations, and Department of Finance shall, in the preparation and maintenance of any statistical analyses and data, by county, either by population, fiscal, or other bases, make a separate breakdown of the Antelope Valley, and shall require the Counties of Kern and Los Angeles to provide all necessary data.

(2) If the use of a tax area code is required in order to comply with paragraph (1), an alternate method shall be used to determine the separate breakdown of the Antelope Valley. An alternate method shall include the sum of the taxable sales attributable to all of the incorporated cities in the Antelope Valley and the taxable sales attributable to the unincorporated areas of the Counties of Kern and Los Angeles that are part of the Antelope Valley. The State Board of Equalization shall require the Counties of Kern and Los Angeles to provide an estimate of the taxable sales data of the unincorporated areas of those counties that are part of the Antelope Valley.

(b) For purposes of this section, the Antelope Valley is that area bounded by the base of the Tehachapi Mountains moving southwesterly to Interstate Highway 5, down the base of the San Gabriel Mountains moving southeasterly to the San Bernardino County line, follow the San Bernardino County line north, to the northern line of California City, then west to the base of the Tehachapi Mountains.
